Martela

Product ID  
Sono work L  
Work pod

Material weight  
(kg)

Material emissions  
(kg CO2e)

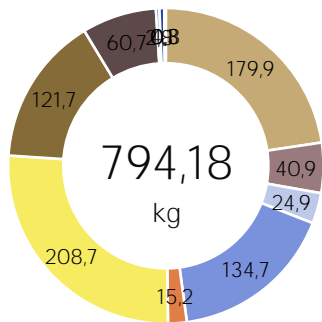

Total emissions  
2040,32 kg CO2e

Product code: 955578

### Specifications:

186x280x220 cm  
Exterior surface (sides) melamine  
Frames painted 90% aluminium recycled  
Walls and ceiling felt 50% PET recycled

Recyclable package includes recycled materials when available (plastic, carton).

- Metal (Steel)
- Foam (PET 50% recycled)
- Foam (PET 0% recycled)
- Glass
- Metal (Aluminium virgin)
- Wood (Particle board)
- Wood (Form pressed or plywood)
- Metal (Aluminium recycled)
- Plastic (PA)
- Rubber
- Electrical parts
- Plastic (PP)

Designed with circular economy principles. Tested for safety and durability.

This product is durable and has been designed following circular design strategies. Its technical durability complies with EN standard. Proper care and maintenance should be used to extend the product's lifespan. When no longer in use by the first customer, the product can be remanufactured, refurbished, or recovered. Any leftover materials that cannot be reused can be recycled or recovered as energy.

CO2 emissions calculations are provided to offer a quick overview and are based on the brand's own self-assessment.

Martela's internal calculations cover the product's lifecycle from cradle-to-grave. Material weight does not include packaging. Emissions related to Materials cover the extraction and disposal phases. Emissions related to Logistics and Production are estimated based on Martela's own facility emissions. Logistics includes the transport of materials to Martela's production facilities and the transportation of the final product to the first customer. Production includes material waste and energy usage in 2024. These calculations are based on EN 15804+A2 standard using coefficients from LCA.no calculation tool. The calculation tool uses mainly Ecoinvent 3.6 (2019) factors. More detailed calculations on selected products are available in EPD Norge portal in our official EPD documents.
