Martela

Product ID
Pinta S&S
Table

Product code: 4323114

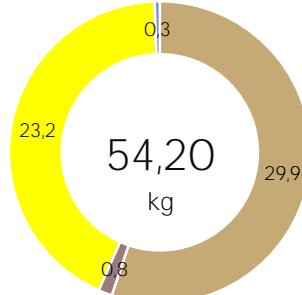

Specifications:

Pinta S&S L-shaped table 160x120 cm left,
top white laminate (L11), base white (MP11),
electric height adjustment 64–129 cm

Recyclable package includes recycled
materials when available (plastic, carton).

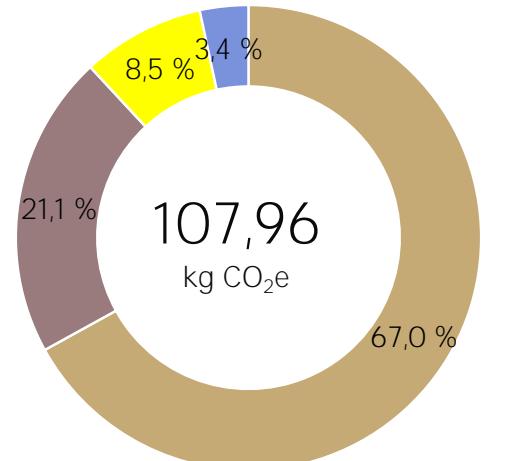

Material weight
(kg)

- Metal (Steel 20% recycled)
- Electrical parts
- Wood (Particle board)
- Plastic (PA)

Material emissions
(kg CO₂e)

Total emissions
128,55 kg CO₂e

Materials
84,0 %

Logistics
13,7 %

Production
2,4 %

CO₂ emissions calculations are provided to offer a quick overview and are based on the brand's own self-assessment.

Martela's internal calculations cover the product's lifecycle from cradle-to-grave. Material weight does not include packaging. Emissions related to Materials cover the extraction and disposal phases. Emissions related to Logistics and Production are estimated based on Martela's own facility emissions. Logistics includes the transport of materials to Martela's production facilities and the transportation of the final product to the first customer. Production includes material waste and energy usage in 2024. These calculations are based on EN 15804+A2 standard using coefficients from LCA.no calculation tool. The calculation tool uses mainly Ecolinvent 3.6 (2019) factors. More detailed calculations on selected products are available in EPD Norge portal in our official EPD documents.

Table

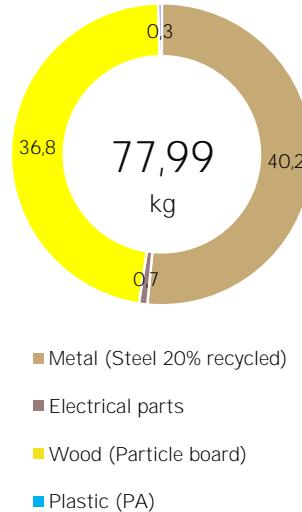

Product code: 4321116

Specifications:

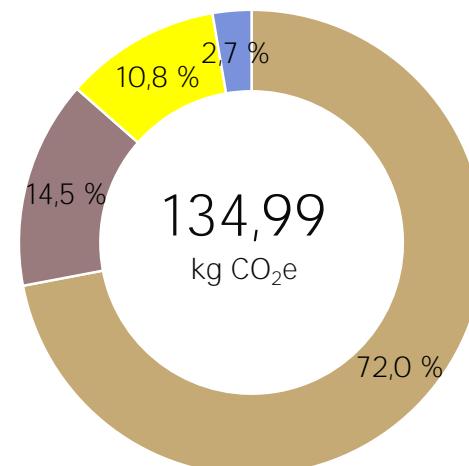

Pinta S&S L-shaped table 200×120 cm right, side table on right 100×60 cm, top white laminate (L11), base white (MP11), **electric height adjustment 64–129 cm**
Recyclable package includes recycled materials when available (plastic, carton).

Material weight
(kg)

Material emissions
(kg CO₂e)

Total emissions
164,62 kg CO₂e

Materials
82,0 %

Logistics
15,3 %

Production
2,7 %

Designed with circular economy principles. Tested for safety and durability.

This product is durable and has been designed following circular design strategies. Its technical durability complies with EN standard. Proper care and maintenance should be used to extend the product's lifespan. When no longer in use by the first customer, the product can be remanufactured, refurbished, or recovered. Any leftover materials that cannot be reused can be recycled or recovered as energy.
